

ARENAGUARD™

ARENA DUST CONTROL

INSTRUCTIONS FOR USE

Safe Non-Toxic Formula (Polyacrylamide with Gypsum)
Veterinarian & Trainer Recommended

Instructions for Use: *First application should be double the maintenance rate.

- 1) Work arena footing smooth (and as level as possible) when dry.
- 2) Using a broadcast spreader:
Apply Arena Guard at a rate of one-half pound per 1,000 square feet.
Or half of a bucket for a large arena (120' x 300') with a broadcast spreader.
- 3) Incorporate Arena Guard with harrow or drag.
- 4) Water arena footing as normal
(Less water will be required on a daily basis)
- 5) Groom footing smooth.

For ideal footing, it is recommended to apply a double dose of Arena Guard for the initial application only. For follow-up applications please refer to the general maintenance guidelines.

For Indoor & Outdoor Use.
Not for human or animal consumption.
